Note to Editors

Sumus, admitted to AIM in February 2005, is the group holding company of Falcon Group Plc, a long established and consistently profitable IFA group, of Financial Synergies Plc which was established in August 2004 and Financial Services Advice and Support Limited which was acquired in September 2006. Falcon was founded in 1983 by Allan Rosengren and Julian Telling, respectively the Group Chief Executive and Group Operations Director of Sumus.

Sumus is a consolidator in the IFA sector, both by way of the organic expansion of its operating businesses and through carefully selected investments in IFA firms, which then become authorised through either the Falcon Group or FSAS. The Sumus Group provides strategic direction, working capital, compliance and risk management resources to the IFA businesses within its networks.
